## GETTING THERE IS HALF THE FUN

There are five beautiful trails that lead to and from LeConte Lodge® and there are convenient trailhead parking lots next to each. To check on trail conditions during business hours, please call 865-429-5704 or after hours 865-436-1230, or visit our website at [www.lecontelodge.com](http://www.lecontelodge.com).

### Alum Cave Trail

Start at the Alum Cave parking area on Newfound Gap Road, 8.5 miles south of Park Headquarters and Visitor's Center. Distance to LeConte Lodge: 5.5 miles. Net climb: 2,560 feet. Although strenuous on the ascent, it is the easiest return from the summit. At the lower portion see Alum Cave Creek, Arch Rock, Alum Cave Bluff (an excellent overlook) at 2.3 miles and national park service interpretive signs. At the upper portion, below Cliff Top, is a narrow cleft across a steep open slope with cables installed for handholds. In winter, this part of the trail may be choked with ice hummocks covering the cables, so use extra caution. Note the large red spruce and tulip trees along the way and flowering rhododendron in late June.

### The Boulevard Trail

Start at the Newfound Gap parking lot. You will follow the Appalachian Trail for 2.7 miles to the junction where the Boulevard Trail branches left (North). Total distance to LeConte Lodge: 8 miles. Net Climb: 1080 feet. The Boulevard Trail is a rolling trail following a narrow ridge with steep forested slopes on both sides; the trail is steep at the final ascent to LeConte Lodge. You may occasionally encounter ice and snow in early spring and late fall on this trail. An interesting side trail just past the junction with the Appalachian Trail leads right 0.4 miles to the top of cliffs at the Jump-off, with striking views of Charlie's Bunion and upper Greenbrier Cove. Myrtle Point and Cliff Top offer other excellent views. Note red spruce and balsam firs along the way.

### Bullhead Trail

Start on the Rainbow Falls - Bullhead parking lot at 3.4 miles on Cherokee Orchard Road (a one-way road). Distance to LeConte Lodge: 7.2 miles. Net climb: 3820 feet. Rainbow Falls Trail, which originates at the same parking lot, rejoins Bullhead at mile 6.4. Fine look-offs at the Bullhead and a heath bald. Note red spruce and balsam firs along the way and the Bullhead Heath for spring blooms. The Bullhead Trail offers magnificent autumn scenery.

### Rainbow Falls Trail

Start on the Rainbow Falls - Bullhead parking lot at 3.4 miles on Cherokee Orchard Road (a one-way road). Distance to LeConte Lodge: 6.5 miles. Net climb: 3,820 feet. Bullhead Trail, which originates at the same parking lot, rejoins Rainbow Falls Trail at mile 5.8. Note Rainbow Falls at mile 2.4. LeConte Creek forcibly erupts over the rocks and can freeze solid in the winter. See impressive overlooks at 5.0 miles. In late June, Rocky Spur is a good place to see flowering rhododendron.

### Trillium Gap Trail

Start at the Grotto Falls parking lot at mile 1.7 on the Roaring Fork Motor Nature Trail (a one-way road closed in winter). Distance to LeConte Lodge: 6.5 miles. Net climb: 3,300 feet. See Grotto Falls at mile 1.5. Note Roaring Fork Creek, one of the steepest streams in the park. Also note red spruce and at higher elevations, Fraser fir. As you walk the trail between Grotto Falls and Trillium Gap, listen for underground streams roaring through the rocks. Trillium Gap Trail is the trail the llamas use to get to the Lodge on Mondays, Wednesdays and Fridays.
